

FIRST DEMOGRAPHIC READINGS IN MEMORY OF ANATOLY VISHNEVSKY

"Demographic horizons of Russia and the world in the medium and long term prospective"

PROGRAM OF THE CONFERENCE

Place and date:

National Research University Higher School of Economics, Zoom platform 9-11 November 2021

* The conference is organized in the framework of a research grant funded by the Ministry of Science and Higher Education of the Russian Federation (grant ID: 075-15-2020-928)

	November 9 (Tuesday)
	Working languages: Russian and English (simultaneous translation)
11:00-11:30	Registration
11:30-11:50	Opening of the conference
	Lilia Ovcharova (Vice Rector, HSE University, Russia)
	Mikhail Denisenko (Director of the Vishnevsky Institute of Demography, HSE
11:50-12:10	University, Russia) Major milestones in the life of an outstanding scientist
	Sergey Zakharov (Vishnevsky Institute of Demography, HSE University, Russia)
12:10-12:30	Break
12:30-14:00	Session 1. Demographic theory, statistics, and population policy
	Chair: Mikhail Denisenko (Vishnevsky Institute of Demography, HSE University, Russia)
12:30	The demographic system and its external environment in the XXI century:
	<i>comprehending turbulence at the junctions</i> Mikhail Klupt (St. Petersburg State University of Economics, Russia)
12:50	Family policy in modern Russia
	Lilia Ovcharova (HSE University, Russia)
13:10	All-Russian Population Census-2021 Svetlana Nikitina (Federal State Statistics Service, Moscow, Russia)
13:30	The Russian Roots of the Demographic Transition Theory
	Mark Tolts (Hebrew University of Jerusalem, Israel)
13:50	Discussion
15.50	Discussion
14:00-15:00	Break
14:00-15:00	Break Session 2. Long-term mortality trends in Russia and the world Chair: Sergey Timonin (HSE University, Russia)
14:00-15:00	Break Session 2. Long-term mortality trends in Russia and the world Chair: Sergey Timonin (HSE University, Russia) Epidemiological transition: causes of death and ages of death
14:00-15:00 15:00-16:30	Break Session 2. Long-term mortality trends in Russia and the world Chair: Sergey Timonin (HSE University, Russia) Epidemiological transition: causes of death and ages of death Inna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute
14:00-15:00 15:00-16:30	Break Session 2. Long-term mortality trends in Russia and the world Chair: Sergey Timonin (HSE University, Russia) Epidemiological transition: causes of death and ages of death Inna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)
14:00-15:00 15:00-16:30 15:00	BreakSession 2. Long-term mortality trends in Russia and the worldChair: Sergey Timonin (HSE University, Russia)Epidemiological transition: causes of death and ages of deathInna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Population loss in Russia as a result of 40-year regression of mortalityEvgeny Andreev, Vladimir Shkolnikov (HSE University, Russia; Max Planck
14:00-15:00 15:00-16:30 15:00 15:20	BreakBreakSession 2. Long-term mortality trends in Russia and the worldChair: Sergey Timonin (HSE University, Russia)Epidemiological transition: causes of death and ages of deathInna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Population loss in Russia as a result of 40-year regression of mortalityEvgeny Andreev, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)
14:00-15:00 15:00-16:30 15:00	BreakSession 2. Long-term mortality trends in Russia and the worldChair: Sergey Timonin (HSE University, Russia)Epidemiological transition: causes of death and ages of deathInna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Population loss in Russia as a result of 40-year regression of mortalityEvgeny Andreev, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Health, mortality and rate of aging: some empirical results from studies in Russia
14:00-15:00 15:00-16:30 15:00 15:20	BreakBreakSession 2. Long-term mortality trends in Russia and the worldChair: Sergey Timonin (HSE University, Russia)Epidemiological transition: causes of death and ages of deathInna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Population loss in Russia as a result of 40-year regression of mortalityEvgeny Andreev, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)
14:00-15:00 15:00-16:30 15:00 15:20	BreakSession 2. Long-term mortality trends in Russia and the worldChair: Sergey Timonin (HSE University, Russia)Epidemiological transition: causes of death and ages of deathInna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Population loss in Russia as a result of 40-year regression of mortalityEvgeny Andreev, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Health, mortality and rate of aging: some empirical results from studies in Russia David Leon (London School of Hygiene and Tropical Medicine, UK; HSE University, Russia)What do we know about socio-economic inequality in mortality in Eastern European
14:00-15:00 15:00-16:30 15:00 15:20 15:40	BreakBreakSession 2. Long-term mortality trends in Russia and the worldChair: Sergey Timonin (HSE University, Russia)Epidemiological transition: causes of death and ages of deathInna Danilova, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Population loss in Russia as a result of 40-year regression of mortalityEvgeny Andreev, Vladimir Shkolnikov (HSE University, Russia; Max Planck Institute for Demographic Research, Germany)Health, mortality and rate of aging: some empirical results from studies in Russia David Leon (London School of Hygiene and Tropical Medicine, UK; HSE University, Russia)What do we know about socio-economic inequality in mortality in Eastern European countries?
14:00-15:00 15:00-16:30 15:00 15:20 15:40	BreakSession 2. Domantas Jasilionis (Max Planck Institute for Demographic Research, Germany) Discussion

17:00	ary NATIONAL RESEARCH LINIVERSITY
	Mortality as a Function of Survival
	James Vaupel (University of Southern Denmark, Denmark)
17:30	Health transition theory in the face of environmental and biological changes
	France Meslé, Jacques Vallin (French National Institute for Demographic Studies,
	France)
18:00	The Challenge of Growth
	John Wilmoth (UN Population Division, USA)
18:30	Discussion
10.00	
	November 10 (Wednesday)
	Working languages: Russian and English
11:00 -12:30	Session 4. Problems of family formation and fertility
	Chair: Sergey Zakharov (Vishnevsky Institute of Demography, HSE University, Russia)
11:00	Marital and Reproductive Behavior as a Barrier to the Population Explosion
	Alexander Sinelnikov (Lomonosov Moscow State University, Russia)
11:20	Family and fertility during the imperial period
	Irina Troitskaya (Lomonosov Moscow State University, Russia)
11:40	Long-term evolution of fertility in Russia
	Sergey Zakharov (Vishnevsky Institute of Demography, HSE University, Russia)
12:00	History of birth control in Russia
	Victoria Sakevich (Vishnevsky Institute of Demography, HSE University, Russia)
12:20	Discussion
12:30-13:30	Break
13:30-15:00	Session 5. Excess mortality caused by epidemics and other extraordinary events
	Chair: Vasily Vlassov (Department of Health Care Administration and Economics, HSE
	University, Russia)
13:30	Life expectancy losses and premature mortality in 2020 in industrialised countries: a
15.50	comparative time-series analysis
	comparative time-series analysis
	Dmitry Idanov (HSE University Pussia: May Planck Institute for Demographic

Research Cen	
	Chair: Vladimir Kozlov (Vishnevsky Institute of Demography, HSE University, Russia)
15:30	On a sociological approach to intergenerational analysis Vadim Radaev (HSE University, Russia)
15:50	Demographic losses of the USSR during the Second World War
	Pavel Polyan (HSE University, Institute of Geography RAS, Russia)
16:10	Temporary population and problems of its study
	Tatiana Nefedova, Andrey Treivish (Institute of Geography RAS, Russia)
16:30	Meeting of generations
16:50	Irina Eliseeva (Saint Petersburg State University of Economics, Russia) Discussion
10.50	November 11 (Thursday)
	Working language: Russian
11:00-12:30	Session 7. Migration and demographic development
	Chair: Ekaterina Demintseva (Institute for Social Policy, HSE University, Russia)
11:00	Problems of registration of labor migrants in the Russian Federation
	Olga Chudinovskikh (Lomonosov Moscow State University, Russia)
11:20	Age-specific patterns of internal migration in Russia at the regional and municipal
	levels
	Nikita Mkrtchyan, Lilia Karachurina (Vishnevsky Institute of Demography, HSE University, Russia)
11:40	Central Asian labor migrants in the Russian labor market
11.10	Vladimir Mukomel (Institute of Sociology RAS, Russia)
12:00	Female labor migration in Russia: estimates based on statistics and surveys
	Yulia Florinskaya (RANEPA, Russia)
12:20	Discussion
12:30-13:00	Break
13:00-14:30	Session 8. Demography and Economics
	Chair: Irina Kalabikhina (Lomonosov Moscow State University, Russia)
13:00	Evolution of wages over working life: separating the effects of experience, cohort and
	time
	Vladimir Gimpelson, Evgenia Chernina (HSE University, Russia)
13:20	Forecasting the contribution of demographic changes to economic growth
	Natalia Akindinova, Daria Avdeeva (Centre of Development Institute, HSE University Puscie)
13:40	University, Russia) Dynamics of Russia's position in the international active aging index in 2010-2019
15.40	Oksana Sinyavskaya (Institute for Social Policy, HSE University, Russia)
14:00	The intergenerational economy and demographic change
1.000	Mikhail Denisenko, Vladimir Kozlov (Vishnevsky Institute of Demography, HSE
	University, Russia)
14:20	Discussion
14:30-15:00	Closing Remarks of the conference
14.30-13:00
